DIAMOND WIRE

DDM Concut offers multiple **DIAMOND WIRE** solutions to cut a wide range of aggregate ranging from abrasive concrete to challenging heavy steel applications. Our wire is rubber coated with spring spacers between the beads along with bead crimps to hold the beads in place during challenging cutting applications, delivering a high performance balance of fast cutting and longer life.

DIAMOND WIRE OFFERING

Part Number	Bead Size	Beads per Meter	Mfg Process	Drive Description
WIRE-12RS-40-10.5	10.5 MM	40	Sintered	High Performance for cutting wide variety of aggregate and rebar
WIRE-V20RS-44-10.2	10.2 MM	44	Vacuum Brazed	High Performance for cutting heavy steel applications
WIRE-32RS-71-8	8.0 MM	71	Sintered	Rescue wire

**Offered in standard lengths of 50 and 100 feet. Additional lengths available by request.*

ACCESSORIES & TOOLS

Part Number	Bead Size
Wire Crimp Inside Thread	OD9MM x ID5.2MM x 20MM Crimp Steel Threaded
Wire Crimp Flexible	OD9.4MM x ID5.2MM x 33MM Crimp Non-Threaded
DWC9255	OD9MM x ID5.2MM x 25MM Long Crimp Steel Threaded
Crimping Tool	Crimping Tool with Carrying Case
MK-8	8MM Die Set Crimper
Wire Crimp Rescue	OD7.5mm x ID4.2mm x 18L
