AMERICAN OWNED SINCE 1946  
MADE IN THE USA

Welcome to the next  
**INNOVATION**  
in **SPEED**

# C6745 POLYARC SEGMENT

## BLADE BENEFITS

- Cuts up to 30% faster than competitors' diamond blades
- Excellent balance of life and speed in wide variety of aggregates
- Polyarc design provides undercut protection extending blade life and helps maintain segment width
- Smooth, freer cutting action reduces wear and tear on your employees and sawing equipment

## APPLICATIONS

- Cured Concrete, Bridge Decks, Steel & Rebar, Project & Service jobs
- Engineered design results in smooth cutting action in challenging applications, abrasive aggregate, and aggregate with heavy rebar
- Head-to-head case study cutting highway patches in Michigan's medium hard aggregate resulted in 25% more linear feet cut (14,390 in-ft vs 12,125 in-ft) in one 8-hour shift versus aligned diamond blade.

## C6745 POLYARC DIAMOND BLADE

Size	Part Number
20 x 165	C674520165PA-L
26 x 165	C674526165PA-L
26 x 187	C674526187PA-L
26 x 200	C674526200PA-L
28 x 187	C674528187PA-L
28 x 200	C674528200PA-L
30 x 165	C674530165PA-L
30 x 187	C674530187PA-L
36 x 165	C674536165PA-L
36 x 187	C674536187PA-L

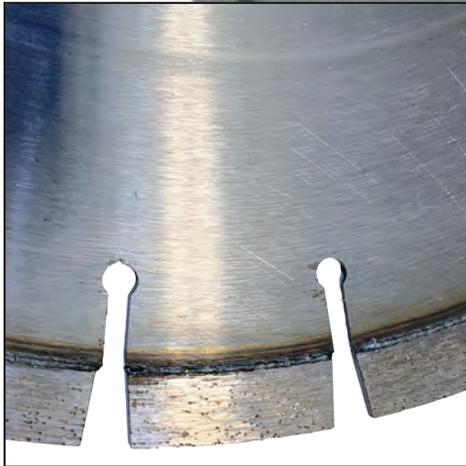

All blades come with Louie bolt hole patterns standard

# C6750 FREEDOM SEGMENT

PROFESSIONAL SERIES

## C6750 STANDARD PRODUCT OFFERING

Size	Part Number
14x125	C675014125
14x140	C675014140
16x155	C675016155
18x125	C675018125

26x165	C675026165
26x187	C675026187
30x155	C675030155
30x165	C675030165
30x187	C675030187
36x155	C675036155
36x187	C675036187
42x187	C675042187

## BLADE BENEFITS

- Superior Performance in Tough, Challenging conditions including interrupted cuts and back cutting!
- Excellent balance of life and speed in wide variety of aggregates
- Engineered design results in smooth cutting action in challenging applications, abrasive aggregate, and aggregate with heavy rebar

## PROFESSIONAL CUTTERS WHO...

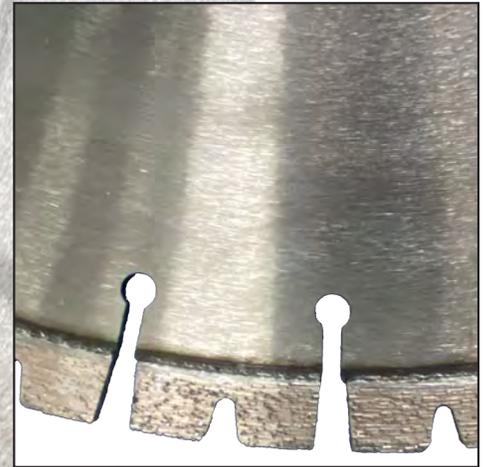

- Value high performance
- Look for **increased productivity** to safely complete more jobs efficiently
- Desire one blade to reduce time and overall costs in project work
- Desire one blade to effectively cut a wide range of applications
- Strive to lower overall job costs focusing on speed, total inch-feet, and minimize downtime

Additional Sizes and Widths Available  
All blades come with Louie bolt hole patterns standard

# C6755 U-NOTCH SEGMENT

PROFESSIONAL SERIES  
DDMCONCUT.COM

## BLADE BENEFITS

- FASTEST Cutting High Performance blade in the FREEDOM Series
- U-Notch segment excels in **FAST** cutting across a wide selection of low to higher HP saws
- Rips through Steel and Rebar

## APPLICATIONS

- Cured Concrete
- Wall Saw
- Service Work
- Curb Saw Cutting

MADE IN  
USA

We have two US manufacturing facilities that provide national coverage. This means greater production flexibility and capacity, which translates to even better product accessibility and delivery for our customers.
